THE BEST WEAPON AT

DA BOMB

DA BOMB has specialized in the **Heavy-Duty MTB** (Mountain Bike) production in Taiwan more than 20 years. We have completely bike supply chain with best quality. We have MIT quality and tech enthusiasm. Whatever Downhill, Enduro/AM, Dirt Jump/FR, XC/Trail, even Gravel and Slope Style also, both can find out our logo!

WE RIDE, WE DESIGN!

DA BOMB is born with the spirit to have high stability and great performance among our products that are unique and precision. We also put emphasis on aesthetic values. Our professional team designer dares to cross over the classics and futuristic to be DA BOMB's core design. We express its fashion-driven originality, and work hard to be trend-leader!

WE LISTEN, WE IMPROVE!

DA BOMB is a brand that has fully passion with innovation and revolution. We listen for lots of expectations from passionate riders worldwide, and also test through our sponsored professional riders. We has gathered feedback from them, analyzed and incorporated their opinions into all of DA BOMB's creations. And that makes DA BOMB strive to follow even leading the latest MTB trends up to date.

The rich experiences in the field, we even have OEM and ODM customers who trust our abilities and profession. We ride bikes, so we know what riders need.

IT'S TIME TO UPGRADE YOUR ARMORY!! AND NOW, LET'S ROCK DA BOMB!

FRAME GEOMETRY CHART

WARNING

Bicycle must be assembled and checked regularly by a qualified mechanic. Always wear appropriate safety gear.

AND LISTEN TO YOUR MOTHER!

FRAME

CHERRY BOMB 29er Boost – ENDURO

DA BOMB classic frame is back. Hydro-forming aluminum tube with smooth welding and also bending seat tube are ultra-aggressive! She will help you go up over the hardest of times. And she's so thoughtful to preinstall the inner dropper routing hole and water cage mount. We designed three special clothes for this charming girl. This's tastier and sweeter than all old cherries.

- **Material:** Aluminum
- **Size :** M & L
- **Tapered Head Tube:** ZS44/ZS56
- **Travel :** 147mm (Horst Linkage)
- **Shock:** X-Fusion O2-PRO-RLX L200*TR57*M8 (FW22.2+RW22.2)
(DA BOMB reserves the right to change the shock)
- **Seat Post:** 30.9mm
- **BB Width :** 73mm W/ISCG-05 mount
- **Rear Dropout:** 148mm*12mm (Included rear axle)
- **Weight (with shock):** 3650g (M) / 3710g (L)
- **Max. size of Tire :** 29"*2.4"
- **Color Available:** Gloss Chameleon / Matte Ivory / Matte Forest Green

BUNKER BUSTER 275 – DOWNHILL

As like BUNKER BUSTER, it has the rigid body to penetrate the underground structures. Its oversized head tube design can raise the rigidity. Its 27.5" specification can let it behave better than 29er. It's started off from the highest place and goes through quickly to cross the finish line. Whatever the most extreme or horrendous conditions, still keep on its way and break every obstacle.

- **Material:** Carbon
- **Size:** M & L
- **Head Tube:** Oversize ID49.5mm
- **Travel:** 8.5 inches (4-Bar Linkage)
- **Shock:** X-Fusion VECTOR AIR HLR L240*TR76 (FW26+RW48)
(DA BOMB reserves the right to change the shock)
- **Seat Post:** 30.9mm
- **BB Width :** 83mm W/ISCG-05 mount
- **Rear Dropout:** 150mm*12mm (included rear axle)
- **Weight:** 4710g (with shock)
- **Color Available:** Black+Yellow

FRAME

SENTINEL 29er Boost – ENDURO

New SENTINEL was born! It's always responsible for multi-terrains exploration. It made of square Hydro-forming Aluminum Tube that's high-strength but lightweight. Its bending down tube and bending seat tube offer extra impact resistance and also visual impact. Short chain stay, low BB, and slack head tube angle. SENTINEL aims to endurance and mobility, it's always standing by.

- **Material:** Aluminum
- **Size:** 15" & 17" & 19"
- **Tapered Head Tube:** ZS44/ZS56
- **Seat Post:** 30.9mm
- **BB Width:** 73mm W/ISCG-05 mount
- **Post-mount Disc Brake System**
- **Weight:** 2340g (19")
- **Color Available:** Gloss Chameleon /
Matte Bronze Orange /
Matte Black

FOAB BOMB 26/275 – DOWNHILL

"FOAB" is abbreviated from "Father of All Bombs", which seems like a father leading you out of risks all the time. Its long wheelbase and lower center of gravity provide confidence in high speed turns. It's applicable with 26" & 27.5" wheelsets and also 435 to 445mm adjustable chainstay length. Whatever you are a DH or FR rider, just enjoy it!

- **Material:** Aluminum
- **Size:** 16.5"
- **Tapered Head Tube:** 1-1/8" (ZS44)/1.5" (ZS56)
- **Travel:** 8.5 inches
- **Shock:** Rock Shox KAGE L240*TR75*M8
(FW22.2+RW22.2)
(DA BOMB reserves the right to change the shock)
- **Seat Post:** 30.9mm
- **BB Width:** 83mm W/ISCG-05 mount
- **Rear Dropout:** 150mm*12mm
- **Weight:** 5100g (with shock)
- **Color Available:** Orange / Neon Yellow

FRAME

NEUTRON BOMB 700C/700C+/650B - GRAVEL

Gravel Bike is the combination of mountain bike and road bike, its frame clearances for wider tires which aims to meld on-road speed with off-road capability, and let the riders enjoy endless riding. Long head tube and shorter top tube allows the rider to move up the right position and body balance to adapt to multi-terrains. It features a comfortable geometry, and lower BB provides the stable riding.

- **Material:** Carbon
- **Size:** 700C/700C+/650B * 50/53/57/59cm
- **Tapered Head Tube:** IS42/IS52
- **Seat Post:** 27.2mm
- **Fork Dropout:** 100mm*12mm
- **Rear Dropout:** 142mm*12mm
- **BB Width:** BB86/BSA 68mm
- **Weight:** 1600g (Frame & Fork)
- **Color Available:** Orange

REVOLUTION 26 - TRAIL

REVOLUTION likes a naughty guy that will be able to accompany you doing stunts, tricks and go on rampaging. Four-bar linkage design and shortened wheelbase adopted to reinforce the structure and nimbleness. Aluminum 7005 double butted tube leaves you to be relieved in its stiffness. It can perfectly perform in Slope Style even Dirt Jump and Street.

- **Material:** Aluminum
- **Size:** 13.5"
- **Tapered Head Tube:** 1-1/8" (ZS44)/ 1.5" (ZS56)
- **Travel:** 4 inches
- **Shock:** X-Fusion O2-RL L165*TR38*M8 (FW22.2+RW22.2)
(DA BOMB reserves the right to change the shock)
- **Seat Post:** 30.9mm
- **BB Width:** 73mm W/ISCG-05 mount
- **Rear Dropout:** 142mm*12mm
- **Weight:** 3590g
- **Color Available:** Neon Yellow

SONIC BOOM 26 - DIRT JUMP

Classic is back! SONIC BOOM is a high performance dirt jump frame. When you ride into the dirt jump, to enhance supportability from is necessary. It made of aluminum that's rigid and responsive but lightweight, which built for doing stunts, tricks and go on rampaging. It designed with all the new up to date dirt jump features such as a tapered head tube and super-short chain stay & wheelbase length. Its rear dropouts sit on horizontal sliding system for easy chain tension and also adjust chainstay length.

- **Material:** Aluminum
- **Size:** 12.8"
- **Tapered Head Tube:** IS42/IS52
- **Seat Post:** 30.9mm
- **BB Width:** 73mm W/ISCG-05 mount
- **Weight:** 2320g
- **Color Available:** Black / Violet

IMPACT STEM

MK2 - DOWNHILL / ENDURO

MK2 made of Aluminum by 3D forged process and also CNC Machined cutout can offer extremely lightweight but durable features. The 35mm extension stabilizes great handling also. We have released four anodized colors options, but there's another funny feature that you can change the faceplate to achieve 16 Color Combinations and perfectly match your bike!

- **Material:** Aluminum with 3D forged & CNC Machined & High Polishing
- **Bar Bore:** 31.8mm
- **Extension:** 35mm
- **Steerer Dia:** 1-1/8"
- **Angle:** ±0°
- **Weight:** 127g
- **Color Available:** Black / Blue / Orange / Purple

RIFLE GRENADE - DOWNHILL / ENDURO

RIFLE GRENADE is a top load 2 pieces stem, which made of aluminum by CNC Machined. Its unique cutout shape can reduce the maximum weight possible, but also maintaining maximum strength. We use the matt-black bottom to make the anodized color top cover stand out. It's pretty matching especially the newest Jet Fuel Color!

- **Material:** Aluminum with CNC Machined
- **Bar Bore:** 35mm
- **Extension:** 45mm
- **Steerer Dia:** 1-1/8"
- **Angle:** ±0°
- **Weight:** 149g
- **Color Available:** Black / Blue / Red / Brown / Jet Fuel

↑ Special Version - Jet Fuel Color!!

IMPACT STEM

BERETTA – DOWNHILL / ENDURO

BERETTA is a wallet-friendly stem with 4 bolts handlebar clamp design. It made of aluminum by 3D forged, which is high-strength and rigidity but lightweight. Its 40mm short length extension can result in snappier steering, which can provide the quicker handling characteristics and more responsive feel.

- **Material:** Aluminum with 3D-forged
- **Bar Bore:** 35mm
- **Extension:** 40mm
- **Steerer Dia:** 1-1/8"
- **Angle:** ±5°
- **Weight:** 113g
- **Color Available:** Black / Blue/ Brown / Orange

SHARK – ENDURO / XC / TRAIL

The fighter's eyes and fearsome teeth – It features a classical but trending bold shark attack artwork which is famous on fighter plane. Giving you the courage invisibly and let you be ever-victorious! It made of Aluminum by 3D-forged, that's high-strength but lightweight.

- **Material:** Aluminum with 3D-forged
- **Bar Bore:** 31.8mm
- **Extension:** 60mm / 80mm
- **Steerer Dia:** 1-1/8"
- **Angle:** ±5°
- **Weight:** 132g(60mm); 138g(80mm)
- **Color Available:** Black

HANDLEBAR

STINGER MISSILE – DOWNHILL / ENDURO

We marked the STINGER MISSILE crosshair as the middle point to let you mount easily. Its 35mm bar bore can offer more stability and durable, also its special geometry structure has cozy riding for riders that suitable for Enduro/DH racing. 800mm width wide bar can provide more responsive steering and more confidence in corners and across huge terrain for riders, so it's better for aggressive trail riding.

- **Material:** Aluminum with Double-Butted
- **Bar Bore:** 35mm
- **Bar Rise:** 25.4mm
- **Backsweep:** 9°
- **Upsweep:** 5°
- **Width:** 800mm
- **Weight:** 380g
- **Color Available:** Grey / Brown / Neon Yellow

APACHE-II – ENDURO / FR

As like as its name "APACHE", you're given unlimited power to win your competitors. You can use this ultimate handlebar to conquer any Enduro / Freeride competitions! We used super-strong, super-resistant, and super-stiff heat-treated double-butted aluminum to create it. We made no compromise when it comes to strength and stiffness.

- **Material:** Aluminum with Double-Butted
- **Bar Bore:** 31.8mm
- **Bar Rise:** 25.4mm
- **Backsweep:** 8°
- **Upsweep:** 10°
- **Width:** 800 mm
- **Weight:** 382g
- **Color Available:** Grey / White / Red

TACTIC-II – DIRT JUMP / STREET

It made of aluminum by double-butted, that's high-strength but lightweight. Combined with its SUPER HIGH 3" rise, it will be your perfect partner to let you try any tricks you want easily, also clearly!

- **Material:** Aluminum with Double-Butted
- **Bar Bore:** 31.8mm
- **Bar Rise:** 3 inches (76.2mm)
- **Backsweep:** 5°
- **Upsweep:** 9°
- **Width:** 760mm
- **Weight:** 420g
- **Color Available:** Black

HEADSET

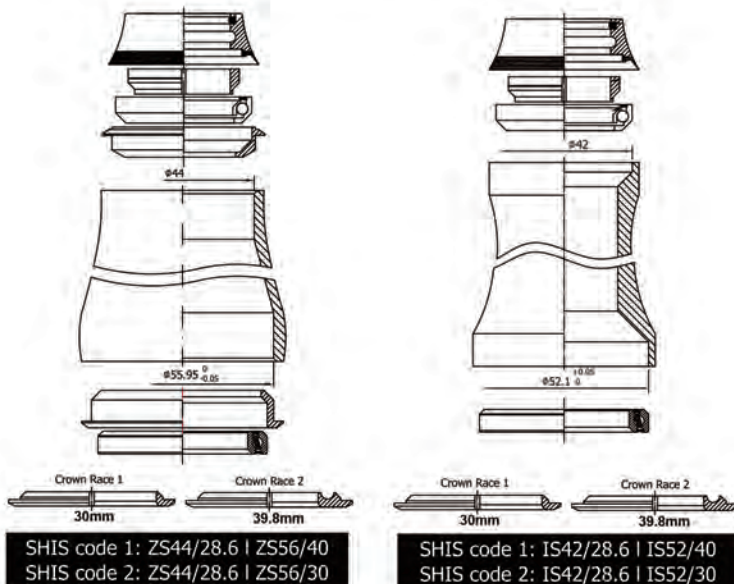

BOMB LOOP 4 IN 1

BOMB LOOP 4 IN 1 included most of standards and size, which is 4 types of headsets but 1-set price only. For shops, it also solves to stock every kind each person needs.

- **Material:** Aluminum with CNC-Machined
- **Bearing:** 45 degree
- **Crown Races:** 30mm & 39.8mm
- **Weight:** 135g

1. INTEGRATED (IS42/IS52)
2. INTERNAL (ZS44/ZS56)
3. FOR 1.5" TAPERED STEERING TUBES
4. FOR 1-1/8" STRAIGHT STEERING TUBE

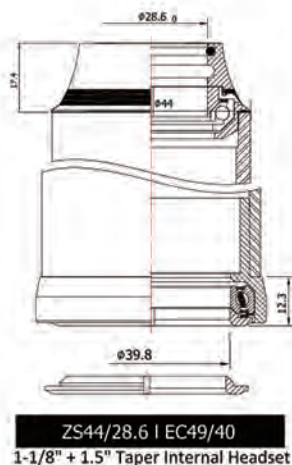

BOMB LOOP EC49

Incredible **BOMB LOOP EC49** with upper ZS44 & lower EC49 for tapered head tube conversion and longer bottom cup headset impose durability and long-lasting performance.

1.5" TAPERED INTEGRATED OUTER BEARING DESIGN (ZS44/EC49)

- **Material:** Aluminum with CNC-Machined
- **Bearing:** 45 degree
- **Crown Races:** 39.8mm
- **Weight:** 146g

HEAD LOCK

Forget the star nut, **HEAD LOCK** will be the best tool to fasten securely and strongly your stem to headset, and provide the extra security in extreme riding. No need anymore star nut that mean you can use one **HEAD LOCK** forever until you never ride again, so that fork access and maintenance has never been that easy!

- **Material:** Cr-Mo Steel with CNC Machined
- **Size:** With convertible part suiting for 1-1/8" diameter steerer and/or 1.5" tapered
- **Weight:** 118g

GRIP

HOLY SHIT 3.0 - MTB

HOLY SHIT! It's an ultimate grip that improved the function and ergonomic. Half-flange blocks your hand not thumb, also combined with vertical pattern that perfect for control the shift lever smoothly. Its check pattern with knurl pattern bottom provides perfect tackiness and skidproof.

- **Material:** Rubber Compound with Slip-Free Pattern Knobs
- **Length:** 135mm
- **ID:** 22.2mm
- **Weight:** 113g
- **Included:** Double Lock-Rings & Rubber End Plugs
- **Color Available:** Red / Black / Gum Rubber / Blue / Orange

CROSS SHIELD (END CAP)

CROSS SHIELD is designed exclusively for DA BOMB Lock-On Grip System. It can provide the high class of protection from crashes or impacts, which will be your best choice to upgrade and replace your original one. So you can throw your bike anywhere (just kidding haha)

- **Material:** Aluminum
- **Weight:** 30g/pair
- **Color Available:** Black
- **Laser etched DA BOMB logo**

PARTICLE - MTB

As its name "PARTICLE", its diamond knurl pattern improves grips and gives the superior comfort. It included the single lock-on clamp, and also reinforced soft ends that provide much more protection from crashes or impacts.

- **Material:** Rubber Compound with Slip-Free Pattern Knobs
- **Length:** 135mm
- **ID:** 22.2mm
- **Weight:** 110g
- **Color Available:** Black / Red / Neon Yellow

BONBONS 2.0 - DIRT JUMP / BMX

Its criss-cross pattern is specially designed for an increased absorption of impacts. The rubber compound has an anti-slip feature that will not let you down in the middle of your trickiest tricks. It can provide excellent control but extremely lightweight. With the BONBONS, you're ready to conquer the world!

- **Material:** Rubber Compound with Slip-Free Pattern Knobs
- **Length:** 140mm
- **ID:** 22.2mm
- **Weight:** 120g
- **Color Available:** Black / Blue / Red / Purple

SEATPOST

ROCKET - ENDURO / TRAIL

ROCKET is a height adjustable dropper by Air/Oil Cartridge. You can position your saddle height freely and easily according to the terrain you meet, and act the technical sections in trail. You just need to operate via Shifter-Style Remote Lever but no need to take your hands off the handlebar that is safer and funner while riding.

- **Material:** Aluminum
- **Air/Oil Cartridge**
- **Travel:** 150mm
- **Post Length:** 430mm
- **Offset:** 0mm
- **Size:** 30.9mm / 31.6mm
- **Weight:** 635g (31.6mm)
- **Internal Cable Routing**

THRUSTER - DOWNHILL / XC

THRUSTER features a 3D-Forged tube for an increased strength. Its 2-bolts saddle clamp can adjust the saddle angle and also steadier bolt the saddle. It comes with 27.2mm / 30.9mm / 31.6mm that give you more options to select.

- **Material:** Aluminum with 3D-Forged
- **Post Length:** 350mm
- **Offset:** 0mm
- **Size:** 27.2mm / 30.9mm / 31.6mm
- **Weight:** 284g

RIFLING - XC

Like the gun rifling, its special spiral pattern can provide much more stability. Ours can prevent from spinning and slipping, also can decrease the noise from the friction between the seat tube and seatpost. Attached rubber ring can prevent mud and dust get into seat tube.

- **Material:** Aluminum with 3D-Forged
- **Post Length:** 370mm
- **Offset:** 0mm
- **Size:** 30.9mm / 31.6mm
- **Weight:** 246g (31.6mm)

SADDLE

DIRT DEVIL - MTB

DIRT DEVIL has scratch-resistant embossed PU cover of Colorful and Black two versions. Super-comfy high-density foam with pressure-relax ergonomics fillster design can give biker more cozy rides. Also it's injected nylon-fiber core providing a maximum of rigidity.

- **Material:** High density foam with PU
- **Cr-Mo Steel Rail:** 7mm w/dual color process
- **Size:** 280*145mm
- **Weight:** 290g
- **Color Available:** Colorful / Black

MOTION - MTB

Open channel design provides not only lightweight but also the adequately ventilate, the blood flow and pressure relief for longer riding. Its wider width and shorter nose saddle supports the sit bones and less some rubbing on inner thighs. Also, its airfoam material with better flexible can offer all-day riding efficiency.

- **Material:** Padding fill in by Airfoam
- **Cr-Mo Steel Rail:** 7mm
- **Size:** 242*145mm
- **Weight:** 256g
- **Color Available:** Black / White / Red / Yellow

BOOSTER - MTB

Different from high frequency embossing, it built up the Camo surface by Synthetic, which can provide Camo visual effects better. Its enlarged chassis can provide better flex and overall comfort. Its Kevlar (Synthetic fiber for bulletproof vests) rear bumper can protect the rear and side while impacts.

- **Material:** Synthetic
- **Cr-Mo Steel Rail:** 7mm w/dual color process
- **Weight:** 250g
- **Color Available:** Camo

THRU AXLE

R-148 BOOST & R-142 THRU AXLE - ENDURO / TRAIL / E-THRU

It's lightweight because of Hollow Lightweight design. Although Thru Axle can't make wheel removal a snap like QR Axle, full enclosed and threaded into the frame to eliminate the change for hub to move. It can massively enhance the strength and stability, also provide the extra security in extreme riding. Actually you can be more effective and more precise in bike handling also. It can be used on Enduro or FreeRide even E-Thru System!!

- **Material:** Aluminum 7075
- **Dropout (Above):** M12 * Pitch 1.75 * L174mm
- **Dropout (Below):** M12 * Pitch 1.75 * L184mm
- **Weight:** 46g (L184mm) & 43g (L174mm)
- **Color Available:** Black

DA BOMB also accepts Pitch 1.0 / 1.5 by case

QRLOCK THRU AXLE (TOOL-LESS) - ENDURO / TRAIL / E-THRU

It's a patent Tool-Less Boost Thru Axle that you don't need to carry an extra allen key while riding. It's designed with combined lever. You can pull the lever out, then quick assemble (or disassemble) the axle. After tightened, it can be hidden and stay inside the axle body perfectly, which no need to worry about it will drop out and affect the wheelset.

- **Material:** Aluminum 7075
- **Dropout:** M12 * Pitch 1.75 * L184mm
- **Weight:** 64g
- **Color Available:** Black
- **Included Extra 6mm Spacer for Length Range of Dropout: 178~184mm**

R-150 THRU AXLE - DOWNHILL

A newcomer to the DA BOMB family: this 150 x 12mm axle is built tough to withstand the most hardcore downhill abuse!

- **Material:** Aluminum 7075
- **Dropout:** M12 * Pitch 1.75 * L190mm
- **Color Available:** Red

R-142 QR THRU AXLE - ENDURO / TRAIL

R-142 QR THRU AXLE will increase the stiffness and rigidity of your frame. It's super easy to adjust and fully compatible with the Shimano E-Thru System.

- **Material:** Aluminum 7075
- **Dropout:** M12 * Pitch 1.75 * L174mm
- **Weight:** 78g
- **Color Available:** Black

HUB

UFO Hub series are both petal-flange design which can increase spokes rigidity. And both have an extra special function – the grease filling port. You can easy to access for maintaining the ratchet without disassembling. Also you can decide the hub operating sound to be softly or loudly, if you fill more or less grease.

UFO R-142 – REAR HUB

- **Material:** Aluminum with CNC Machined of Body / Aluminum 7075 of Hollow Axle / Aluminum 7075 of Side Cap
- **O.L.D. :** 142mm*12mm
- **Spoke Hole:** 32H , 6 pawls 36 ratchet teeth
4 sealed bearings
- **Weight:** 294g
- **Color Available:** Black

UFO R-148 BOOST – REAR HUB

- **Material:** Aluminum with CNC Machined of Body / Aluminum 7075 of Hollow Axle / Aluminum 7075 of Side Cap
- **O.L.D. :** 148mm*12mm
- **Spoke Hole:** 32H , 6 pawls 36 ratchet teeth
4 sealed bearings
- **Weight:** 315g
- **Color Available:** Black / Jet Fuel

• Grease filling port design of UFO rear hub

UFO F-15 – FRONT HUB

- **Material:** Aluminum with CNC Machined of Body / Aluminum 7075 of Hollow Axle / Aluminum 7075 of Side Cap
- **O.L.D. :** 100mm*15mm
- **Spoke Hole:** 32H , 2 sealed bearings
- **Weight:** 211g
- **Color Available:** Black

UFO F-15 BOOST – FRONT HUB

- **Material:** Aluminum with CNC Machined of Body / Aluminum 7075 of Hollow Axle / Aluminum 7075 of Side Cap
- **O.L.D. :** 110mm*15mm
- **Spoke Hole:** 32H , 2 sealed bearings
- **Weight:** 211g
- **Color Available:** Black / Jet Fuel

OPTIONAL PARTS: 20mm CAPS

Material: Aluminum 7075
20mm Caps for UFO F15
20mm Axle Adaptor

UFO R-150/157 - REAR HUB

- **Material:** Aluminum with CNC Machined of Body / Aluminum 7075 of Hollow Axle / Aluminum 7075 of Side Cap
- **O.L.D. :** 150mm*12mm
- **Spoke Hole:** 32H , 6 pawls 36 ratchet teeth, including 157*12mm side cap, 4 sealed bearings
- **Weight:** 306.5g
- **Color Available:** Black

INCLUDED: 150/157 CAPS

Material: Aluminum 7075 for UFO R-150/157

STRAFE R-10 - REAR HUB

STRAFE R-10 is BOLT-ON Type especially designed for DJ-Street biker, which use in 10 speed free wheels.

- **Material:** Aluminum with CNC Machined of Body / Aluminum 7075 of Hollow Axle / Aluminum 7075 of Side Cap
- **O.L.D. :** 135mm*10mm
- **Spoke Hole:** 32H , 4 sealed bearings
- **Weight:** 555g
- **Color Available:** Black

INCLUDED: 10MM BOLT

UFO REAR HUB R-148 BOOST SERIES

Our main body of hub is interchangeable, that's mean UFO R-148 BOOST can change the Cassette into SRAM-XDR. But the newest MICRO SPLINE is special specification, so it can't do that. Please double confirm what types of cassette you need before order. Included:

**FOR SHIMANO
10/11s**

**FOR SRAM
XD/XDR
11/12s**

**FOR SHIMANO
MICRO SPLINE
12s**

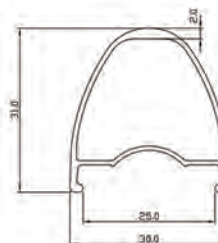

RIM / WHEELSET

INSPIRE 29 are crossover rim we design. It's suitable for MTB even GRAVEL & E-BIKE. It made of Special Niobium Alloy, which can provide two-times strong tensile force than normal alloy. And its double wall alloy extrusion let it more durable but still enough lightweight. Btw, it's TUBELESS READY also.

INSPIRE-29

- MTB / GRAVEL / E-BIKE

- **Material:** Special Niobium Alloy
- **Size:** 29" * 32H
- **Outer Width:** 30mm / **Inner Width:** 25mm
- **EDR:** 570.5
- **Height:** 31mm
- **Weight:** 560g
- **Color Available:** Grey / Neon Yellow / Neon Orange

INSPIRE-29 BOOST WHEELSET

- MTB / GRAVEL / E-BIKE

- **Rim:** INSPIRE-29 Rim , 29er *622 *32H
- **Front Hub:** UFO F-15 BOOST , 15mm Thru Type
- **Rear Hub:** UFO R-148 BOOST , 12mm Thru Type
- **Spoke:** Black Stainless Steel 14G
- **Weight:** 2.22kg
- **Color Available:** Neon Yellow / Neon Orange

SKULL / DA BOMB CROSS VALVE (SCHRADER / AMERICAN VALVES)

↓ It's all about the attitude: get more confidence and scare your enemies with these skull-shaped valve caps!

↓ DA BOMB exclusive valves! LET'S ROCK DA BOMB!

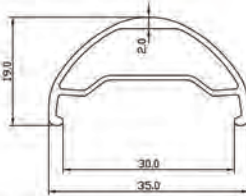

RIM / WHEELSET

ADVANCE 275 & 29 are design for MTB (also suitable for E-BIKE).
 It puts emphasis on anti-impact, Downhill especially. Btw, it's TUBELESS READY also.
 In 29er version, it's coming with special decal that's gradient colors in Red to Black.
 In 27.5 version, it has three standard colors, and also limited edition in golden camo.

ADVANCE-29 - MTB / E-BIKE

- **Material:** Aluminum
- **Size:** 29" * 32H
- **Outer Width:** 35mm / **Inner Width:** 30mm
- **EDR:** 594.5
- **Height:** 19mm
- **Weight:** 532g
- **Color Available:** Red

● WITH STAINLESS STEEL EYELET

ADVANCE-275 - DOWNHILL / FR

- **Material:** Aluminum
- **Size:** 27.5" * 32H
- **Outer Width:** 35mm / **Inner Width:** 30mm
- **EDR:** 556.5
- **Height:** 19mm
- **Weight:** 495g
- **Color Available:** White / Neon Yellow / Neon Blue

DA BOMB RIM TAPE

- **Rim Tape for 27.5" Rim**
- **Material: High Strength Tape**

ADVANCE-29 BOOST WHEELSET - MTB / E-BIKE

- **Rim:** ADVANCE -29 Rim , 29er *622 *32H
- **Front Hub:** UFO F-15 BOOST , 15mm Thru Type
- **Rear Hub:** UFO R-148 BOOST , 12mm Thru Type
- **Spoke:** Black Stainless Steel 14G
- **Weight:** 2.16kg
- **Color Available:** Red

PEDAL

DOUBLE CROSS – DOWNHILL / XC

DOUBLE CROSS included the LSL bushing and sealed bearing. And the axle made of high strength Cr-Mo Steel with heat treated and CNC machined. Its wider platform is slightly concave in surface that provides give maximum support while step on it. It's coming with the replaceable cylindrical pins, can provide great traction and grip, but also decrease the risk to get hurt. Importantly, it's budget-friendly, which seems like CNC pedal but in Die-Casting pedal's price.

- **Material:** Aluminum with Die-Casting
- **Platform Size:** 112*110mm
- **Thickness:** 13mm
- **Bearing:** LSL Bushing & Sealed Bearing
- **Weight:** 443g/pair
- **Color Available:** Black / Blue / Red

● REPLACEABLE PINS

● THIN PEDAL

VS 50 – DOWNHILL / TRAIL

It is budget-friendly pedal but enough durable and strong. Its axle made of high strength Cr-Mo Steel with CNC Machined. It's coming with the replaceable cylindrical pins, can provide great traction and grip, but also decrease the risk to get hurt. Btw, we released in neon color with painting surface treatment, and let your bike look smart.

- **Material:** Aluminum with Die-Casting
- **Platform Size:** 111*108mm
- **Thickness:** 17mm
- **Bearing:** Loose Ball Bearing
- **Weight:** 450g/pair
- **Color Available:** Black / Neon Yellow / Neon Orange

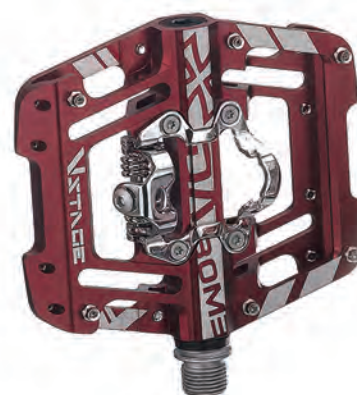

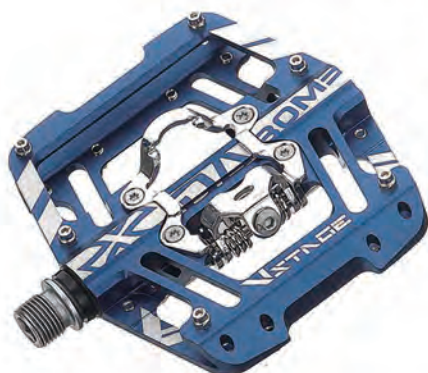

PEDAL

V STAGE – DOWNHILL / ENDURO

It features a double-sided design, so you can use it either as a clipless or as a super grippy flat pedal. Whatever is your choice, your floor won't slip: the large platform area, the ultra-rigid cage and the pedal is CNC-machined to achieve the best rigidity and strength for an impressive 12mm-thickness!

- **Material:** Aluminum with CNC Machined
- **Platform Size:** 100*110mm
- **Thickness:** 13mm
- **Bearing:** LSL Bushing & Sealed Bearing
- **Weight:** 467g/pair
- **Color Available:** Black / Blue / Red

BULLET CLIP – DOWNHILL / TRAIL

These CNC-machined pedals feature a radical 10mm thickness in extreme thin. The free-vent design that we used on the BULLET CLIP will keep away mud, sand, and dirt from spindle, thus increasing the life of your pedal.

- **Material:** Aluminum with CNC Machined
- **Platform Size:** 97*108mm
- **Thickness:** 10mm
- **Bearing:** Two Sealed Bearings & One DU
- **Weight:** 356g/pair
- **Color Available:** Black / Blue / Red

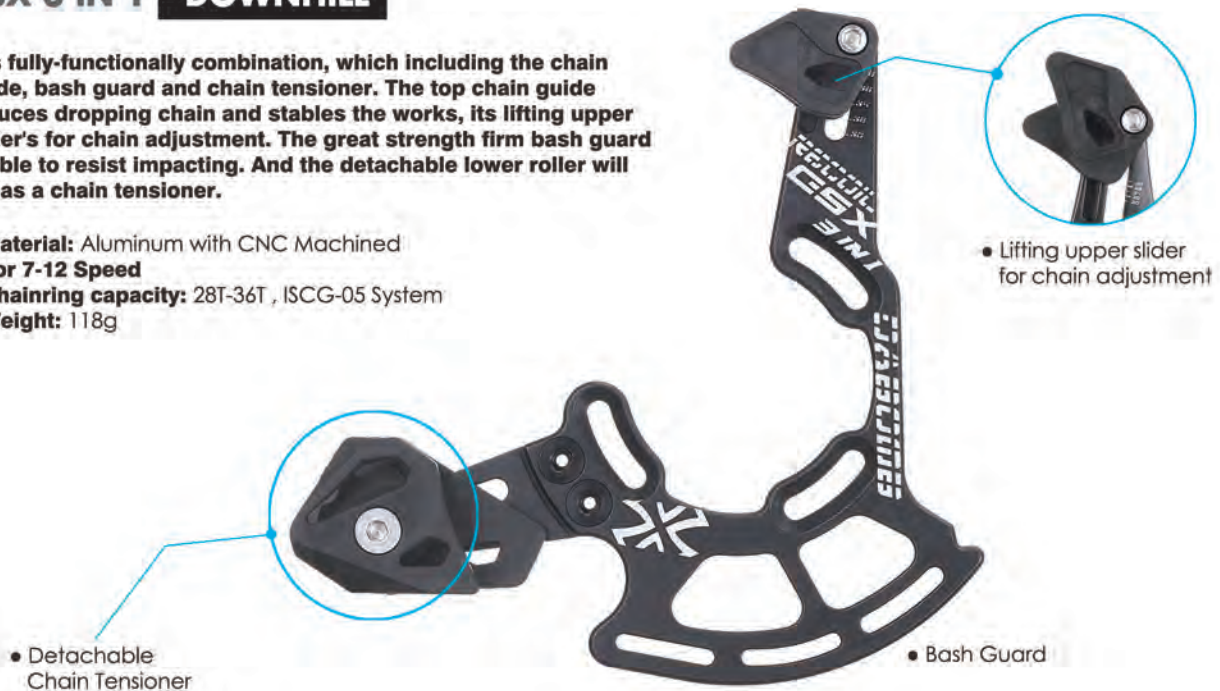

CHAIN GUIDE

GSX 3 IN 1 - DOWNHILL

It is fully-functionally combination, which including the chain guide, bash guard and chain tensioner. The top chain guide reduces dropping chain and stables the works, its lifting upper slider's for chain adjustment. The great strength firm bash guard is able to resist impacting. And the detachable lower roller will act as a chain tensioner.

- **Material:** Aluminum with CNC Machined
- **For 7-12 Speed**
- **Chaining capacity:** 28T-36T , ISCG-05 System
- **Weight:** 118g

GSX 2 - ENDURO

It is fully-replaceable combination, which including the chain guide, bash guard. The adjustable Upper Slider can let you lift the suitable angle and be effective to prevent chain drops. The replaceable bash guard can protect your chainring from big impacts, such as rocks or boughs. And you only need to replace the bash guard if crush.

- **Material:** Aluminum of Body / Fiber-Reinforced Plastic of Guard
- **For 7-12 Speed**
- **Chaining Capacity:** 30T-38T , ISCG-05 System
- **Weight:** 72g

SCG - ENDURO

It is a tough chain guide that's simple, efficient and lightweight. You don't need to remove your crank for assembling or disassembling. It can be used on standard chainring even oval chainring, and it will prevent any chain drops.

- **Material:** Nylon with Carbon Fiber Injection
- **For 9-11 Speed**
- **Chaining Capacity:** 28T-36T , ISCG-05 System
- **Weight:** 28g

CHAIN GUIDE

BGS - ENDURO

At DA BOMB, we try to create solution kits that can solve our customer's nightmares. It is a chain guide that will prevent chain drops. Also its CNC-machined aluminum body is reliable strength. If you ride seriously, you definitely need one!

- **Material:** Aluminum with CNC- Machined
- **For 9-11 Speed**
- **Chaining Capacity:** 32T-40T , ISCG-05 System
- **Weight:** 152g

GS-D - ENDURO

The lower roller will act as a chain tensioner that keeps your chain in place. As the designs of the roller is broader and is using material as soft as possible, we managed to reduce unnecessary frictions, chain offset, noise and rolling resistance.

- **Material:** Aluminum with CNC- Machined
- **For 9-11 Speed**
- **Chaining Capacity:** 22T-38T , ISCG-05 System
- **Weight:** 77g

MARK 2 - SINGLE-BOLT

Have a close look at this CNC-machined single-bolt seat clamp: every detail has been designed to make it the most lightweight, efficient, essential. Its chamfered edge and offset inner bore design protects the seat post and the seat tube from friction.

- **Material:** Aluminum with CNC Machined
- **Size:** 34.9mm
- **Weight:** 27g
- **Color Available:** Black / Blue / Red / Silver

MARK 3 - SINGLE-BOLT

The upgrade edition of CNC-machined clamp - MARK 3 (left) & BOMB QR CLAMP 3.0P (right)! We added the Water-Repellent functional parts to prevent mud and dust flow into seat tube. Its chamfered edge and offset inner bore design also protects the seat post and the seat tube from friction. We also select special surface finish - QR lever with "MATTE" and body with "GLOSS".

- **Material:** Aluminum with CNC Machined
- **Size:** 34.9mm
- **Weight:** 27g
- **Color Available:** Black

BOMB QR CLAMP 3.0P - QR

- **Material:** Aluminum with CNC Machined
- **Size:** 34.9mm
- **Weight:** 47g
- **Color Available:** Black / Red / Blue

BIKE KIT

TO ONE KITS - DIRT JUMP / STREET

Changing the cassette can be annoying sometimes, that's why DA BOMB created the TO ONE KITS. It's simple to convert a multi-speed hub cassette into a single-speed, which can save your time and works.

- **Material:** 2 Spacers in Aluminum / Cr-Mo Steel Lock Ring & 14/16T Sprocket
- **Weight:** 75g
- **Color Available:** Black

SCROLL - DOWNHILL

SCROLL allows you to reduce your available gears in order to get a more responsive shift system, and let it become lightweight with less vibration. Although it targets mainly Downhill riders, it can also be used on the road bike. It made by CNC-machined for an increased toughness.

- **Material:** Aluminum with CNC-Machined
- **Weight:** 39g
- **Compatible System:** SHIMANO
- **Color Available:** Green / Blue / Red / Black

RL-X (CHAIN TENSIONER) - DIRT JUMP / STREET

Single Speed Chain Tensioner with micro-adjustable roller system, which is multi-segment tension adjustment and double spring chain guide design. It's frictionless, low vibration and also noiseless. Easily assemble on the derailleur hanger whether QR axle or thru-axle you're using.

- **Material:** Aluminum with CNC-Machined
- **Weight:** 121.5g
- **Color Available:** Black

EAGLE EYE 14T / 16T (PULLEY)

Improving the issue of original parts that can't rotate freely when dirt or water gets inside. It can reduce the friction and resistance between chain and rear derailleur. That means the chain can work smoother and unhindered, also improve the performance of variation in speed, uphill especially. And its narrow-wide tooth design can throw out chain drop with the perfect chain mesh fit.

- **Material:** Aluminum 14T & 16T Pulley
- **Weight:** 28g
- **Compatible System:** SHIMANO 12S
- **Color Available:** Black / Gold / Purple

X-ORBIT (OVAL CHAINRING)

Oval Chainring uses for minimizing the "dead spot" in the pedal stroke, especially pedaling in 180 degree and 270 degree, which can reduce the knees loading. It's for all cranks with 104 BCD interface to improve traction and climbing abilities, that optimize your pedaling power. Its narrow-wide tooth design throw out chain drop with the perfect chain mesh fit also.

- **Material:** Aluminum with CNC-Machined
- **BCD:** 104mm
- **Teeth:** 34T / 36T
- **Weight:** 51g (34T) / 59g (36T)
- **Color Available:** Black

D-HANGER - DIRT JUMP / STREET

D-HANGER allows you to mount a rear derailleur on horizontal-dropout frame. As all the DA BOMB products, it has been engineered, designed and built with riders in mind: the D-Hanger is tough, reliable and super-convenient.

- **Material:** Aluminum
- **Size:** 10mm axle

HCT - DIRT JUMP / STREET

HCT is a heavy-duty chain tensioner made for horizontal-dropout frames with 10mm axles. This might be a small piece of equipment, but it's a concentrate of DA BOMB experience and know-how in Street/DJ.

- **Material:** Aluminum
- **Weight:** 71.5g

ISCG-05 ADAPTOR - ENDURO / TRAIL

It allows for mounting of ISCG-05 to a frame with BB mount.

- **Material:** Aluminum with CNC-Machined
- **Weight:** 31g

RIDER APPAREL

BOMB RACING TEAM JERSEY - DOWNHILL

It made of 100% Polyester, that isn't easy to wrinkle and shrink, also not easy to moldy and cause allergies. It has great moisture absorption and perspiration capacity. It's quick-drying to keep your skin much more comfortable. So you don't need to worry about the bad smell of perspiration. Also it's smooth and soft, with high elasticity that's suitable for Extreme Sports.

- **Material:** 100% Polyester
- **Size Available:** S / M
- **Color Available:** Black / Orange
- **Made in Taiwan**

SIZE	Chest Width	Jersey Length	Sleeves Length	Shoulder Length
S	20" (51cm)	28" (71cm)	24" (61cm)	17" (43cm)
M	22" (56cm)	29" (74cm)	25.5" (65cm)	17.5" (45cm)

TECHNICAL TEE - FREESTYLE

SIZE	A	B
S	61cm	52cm
M	63.5cm	53cm
L	65.5cm	56cm

- **Material:** 100% Polyester
- **Size Available:** S / M / L
- **Color Available:** Black
- **Made in Taiwan**

TEAM CAP

Do you think the sun is too bright when standing on podium to get your medals? Let's wear a Team Cap. It has 3D embroidered DA BOMB team graphics, and comes with adjustable snapback that one size fits most!

- **Material:** 100% Polyester
- **Size:** Adult (one size fits most)
- **Color Available :** Black
- **Made in Taiwan**

TEAM CREW SOCKS

TEAM CREW SOCKS has 7-inch cuff that offer the maximum protection possible avoiding the gash from pedals. It is engineered with firm compression and thick profile for high class protection and comfort but features mesh zones for breathability. It's also engineered with Micro-flexible sock sole for shock absorption and protecting arch of the foot.

- **Material:** 83% Cotton + 7% Nylon + 10% Spandex
- **Free Size in 25~30cm**
- **2 pairs/pack in two styles**
- **Made in Taiwan**

ACCESSORY

BUNKER 2 - DOWNHILL / ENDURO

Two versions - Fork Mudguard and Downtube Mudguard. Fork Mudguard comes with three snap rings to fit your bike that easy to install but gains no weight, and it offers the best protection from mud sprayed out by front wheel. Downtube Mudguard is anti-slip and flexible that fits most bike frame, and it prevents the scratches to the downtube of frame, carbon frame especially!

DOWN TUBE MUDGUARD

- **Material:** Nylon & Neoprene
- **Size:** 275*95mm
- **Color Available:** Black

FORK MUDGUARD

- **Material:** Nylon & Neoprene
- **Size:** 125*105mm (small) for fork travel 90-14mm
160*105mm (large) for fork travel 140-200mm
- **Color Available:** Black

BOMB FENDER 2021 - MTB

It is a muck catcher that efficiently prevents mud/ water/ rocks from clogging the rear shock or hitting the frame. That can avoid muddy spreading on your eyes or even on your ass haha. This portable blade designed is extra light and thin, also simple installation and un-installation between any specific occasions.

- **Color Available:** Black
- **2pcs / 1pack**

PROTECTOR RING - MTB

At DA BOMB, we are super proud of these little ones! It is made to defend your bike's chain stay or entire frame from attacks of rocks without scratches covered. Simple yet efficient! The PROTECTOR RING fit MTB and road bikes.

- **Color Available:** Black / Red / Blue / Neon Green
- **4pcs in same color / 1pack**

ACCESSORY

MAGNETIC MOUNT WATER BOTTLE - MTB, especially ENDURO

DA BOMB water bottle combined with FidLock magnetic bracket, which licensed by FidLock (Germany). It's special design for Enduro or small size frame, because the middle suspension took up lots of space that is difficult to use the standard water cage. Its strong magnets can fix secure locking, so you can quick take and attach bottle to the magnetic mount.

- **Material:** Polypropylene with BPA-free
- **Temp:** -5 °C to 50 °C
- **Capacity:** 600ml (21oz)
- **Weight:** 164g
- **Color Available:** Clear Black
- **Made in Taiwan**

BOMB CARTRIDGE CASE

This compound water bottle cage comes with built-in handy Tool Case, Mini Box, and Integrated Tire Lever. It's easily accessed with a simple push. It included precision full metal function mini tool that is convenient for precise adjustments. It's perfect to fill all your road repair needs.

- **Tool Case included:**
Phillips + Slotted + Hexagon + T15 + T20 + T25
- **Mini Box included:**
Spoke holder + Chain pin breaker, and still have some space to put your personal items e.g. cash
- **Integrated Tire Lever with Allen key set**
(Size: M3 / M4 / M5)

- **Material(Bottle Cage):** Nylon Fiber
- **Material(Tools):** Cr-Mo Steel
- **Weight:** 143g (with tools)

BOMB BOY WATER BOTTLE (JET VALVE DESIGN)

If you ride DA BOMB and want to be like the Bomb Man, you got to have the cool DA BOMB water bottle. It made of 100% BPA-free Polypropylene, and its 750ml capacity will quench the thirstier. Its JET valve cap can offer 100% leak-proof, whatever you unlock the cap and invert the bottle if not pressing!

- **Material:** Polypropylene with BPA-free
- **Temp:** -5 °C to 50 °C
- **Capacity:** 750ml
- **Color Available:** Clear Black
- **Made in Taiwan**

ACCESSORY

FLAG KITS

DA BOMB FLAG WITH LOGO DESIGN

- **Size:** 307*69cm
(Not included the alloy base)

SPECIAL EDITION

LIMITED EDITION – TUBELESS TOOL SET

Tubeless Ready is already the standard in every brand's rim. DA BOMB has already released the Tubeless Tool Set – included Tire Sealant, Rim Tape, and Presta Valve. It's suitable for Mountain Bike even Road Bike.

↑ Tubeless Tire Sealant is tested in accordance by the SVCH standard under the REACH regulation. The latex rubber and carbon fiber can repair the puncture rapidly. Btw, please shake the sealant to let it well mixed before use.

↓ Tubeless Rim Tape is easy to apply and high thermostability. We suggest wrapping twice for each wheel, also please confirm to discharge all bubble and reserve a hole for Tubeless Presta Valve.

SPECIAL COLOR EDITION (ARMY GREEN CAMO)

Army Green Camo - fully military style is loved by boy, seem like meaning the tough guy. Our hot-sales BOOSTER Saddle used this style also! And now we have released this style in HOLY SH*T 3.0 Grip also! (p.s. we accept the customization)

SPECIAL COLOR EDITION (JET FUEL)

Jet Fuel color, also called Oil Slick color. It's designed to look dark in certain lighting and shine colorful in the light. It's wonderful color for embellishing your bike! DA BOMB has released this color choice in RIFLE GRENADE Stem and also UFO HUB Boost Series (p.s. we accept the customization)
