WHO HAS THE BEST WEAPON

THE BEST WEAPONS AT DA BOMB!!!

DA BOMB was founded in 1998, started with our passion, belief and we have dedicated ourselves in MTB field from the passed each single day until now, our motto is easy that is "build a way out to facilitate all the bikers pursuing dreams", we are bikers ourselves, so we know how the feelings are truly figured from other bikers, we ride and we design.

A day by day innovation, DA BOMB chases a high technology of lightening MTB components without losing its cozy that brought to the riders, in order to optimize our products, DA BOMB team extracts opinions from overseas sponsored athletes as well, we turns all impossibilities over to unbeliefs.

DA BOMB strongly insists in all the products presented base on integration of technologically innovative hardcore CNC machining and aesthetics wherever on color use or structure design to ultimately enhance performance. All the components as frame, stem, seat post, handlebar, pedal, saddle, clamp, grip, headset, hub and rim set embraced from each of DH, FR, Slope Style, Enduro/AM, Dirt Jump and XC are prerequisite as a full collection from DA BOMB to domain the territories of Extreme/MTB/off roads bikes, and this is the target we are always toward to.

Now, get ready to have your heart blown away for 2015 DA BOMB collection introduced.

ROBIN WALLNER NIKLAS WALLNER

Sweden

(wallner brothers)

RIDER PROFILE-ROBIN WALLNER

2015 European Enduro Series in Punta Ala, Italy (3rd place)
2013 UCI Ranking (27th place)
2012 European cup overall winner
2010 European Champion
4-times Swedish champion
3-times Nordic Champion

Robin Wallner from Stockholm, Sweden is considered as one of talented all-round riders in Europe. During the last season, Robin has competed mainly in DH-series for the European, World Cup, and national events. He has raced for Enduro as well but mainly for national events.

At the end of 2014, Robin decided to race Enduro more after experiencing from national Enduro events. Hence, more brilliant marks obtained as the 2nd place finished for European Enduro-series and an impressive 17th place from the Enduro World series finale.

Robin's brother Niklas is also a fabulous rider as he had obtained 16th place from Hafjell World Cup 2013 and champion from Swedish national event 2012.

DA BOMB has sponsored to Wallner brothers for many years, FOAB BOMB, SONIC BOOM and EMP275 are the weapons leading Wallner brothers through many competitions.

RIDER PROFILE-NIKLAS WALLNER

2013 Hafjell World Cup (16th place)
2013 UCI Ranking (79th place)
2012 Swedish National Champion

LEOPOLD ERHARDT

Germany

RIDER PROFILE-LEOPOLD ERHARDT

2015 Biketown, Poland (20th place)
2014 Oneal Rookies Cup, Austria (6th place)

As 18-year-old Leopold Erhardt said: "Riding bikes is not just a hobby but an attitude to my life. It's all about having funs, meeting new/old friends and getting some news about biking. Mostly I am riding slopestyle since the jumps are more challengeable and you have to push yourself always conquer the limitations to become better. Riding bicycle is definitely essential in my life."

Leopold is a little boy that DA BOMB sponsored him from 2014 with a REVOLUTION frame, hence we can always see him riding REVOLUTION on every time his training, practices, races or even just for funs via the facebook and showing that he is quite enjoying and passion. Believing the joys that Revolution brings to him is unlimitedly growing.

DAVID DERYCK

Belgium

RIDER PROFILE-DAVID DERYCK

2014 DH1 international Belgium men's elite top 50 overall standings
2013 Leirekens Whip off contest (1st place)
2012 4x/dual slalom, Brazil (3rd place)
Belgian Championship Namur Men's Elite (14th place)

5 years ago, David Deryck from Belgium found himself of loving mountain biking, started with an old beat-up mountain bike and went to small local jumping and skate parks while the love for bikes kept growing, as well as rode downhill and dual slalom events with his brother by DB components. Now it's not a hobby anymore, it's a lifestyle.

"National dual slalom/4x, Belgium, the first race of mine, I took 3rd place as Men's Elite. Racing in the national dual slalom events was what truly started to keep me going, I ended up from getting on the podium and since then I've been hooked on racing!

Thanks for the sponsorship from Da Bomb of providing me SONIC BOOM, WARHAWK frames to 4x and dual slalom events, and the FOAB BOMB.

TSAR BOMBA for all freeride/downhill events and races, I can now focus completely on climbing the ranks. What I think about after everyday waking-up is blazing up some trails and getting airtime on my bike." David said.

He has the motivation of becoming one of the fastest guy out there and appreciates to DA BOMB sponsorship that makes this dream coming true. Nothing can keep David off his bike, now riding everything his country has offered, the biggest dirt jump spots, the steepest downhill trails, all national events. He never gets bored and always being with a big smile since he has a beautiful dream as a personal quest of becoming the fastest man alive.

ROBIN CHARPENTIER

France

RIDER PROFILE-CHARPENTIER

2015 FISE experience, Reims (1st place)
2014 Jam, Venette (1st place)
2013 Jam, Venette (4th place)
2012 Jam, Venette (4th place)
2011 FISE, Montpellier (15th place)
2011 Jam, Venette (3rd place)

Robin is a great athlete involving himself in physical training, muscle building and gymnastics to reach an optimization in each DJ races, Robin's friend said: "Robin is a gold medalist in many competitions, he is the best apprentice in France!"

"I started to ride DJ in 2010 after watching an international biking event from TV, I quickly began to roll on local spots and at meanwhile I became acquainted with some friends owning the same habit with me.

What I like in the MTB is the atmosphere, the adrenaline bringing up and a sense of freedom. Riding on the new frame SONIC BOOM is giving me self-confidencel", said by Robin.

Robin has been sponsored by DA BOMB from 2014, started with a SONIC BOOM frame through many practices and races, now he is confident that he is going to break his records repeatedly to make himself better.

FRAMES

FOAB BOMB 26/27.5

DOWNHILL

"FOAB" is abbreviated from "Father of All Bombs", if you have a chance to get a FOAB BOMB, you will know the frame is like a father leading you out of risks all the time. The lengths of hand reach and wheelbase are increased, this makes sure to have a more stable ride on every hard trail, chainstay is adjustable in accordance of circumstance, culture and your habits. Bearings enlarged from each links to completely conquer and absorb all possible impacts. 27.5" and 26" wheel sets are both applicable for the frame, wherever you are a DH or FR rider, just enjoy it!

Applicable with 26" and 27.5" wheel sets
 Hydro-forming tube
 Dual mode control of chainstay available in 435/445mm

Size: 16.5"
 Tapered Head Tube 1-1/8"/1.5"
 Travel: 8 inches
 Shock: Rock Shox KAGE L240*TR75*M8 (FW22.2+RW22.2)
 (DaBomb reserves the right to change the shock)

Seat post: 30.9 mm
 BB width: 83mm
 Chain Guide: ISCG 05
 Rear dropout: 150mm X 12mm
 Weight: 5100g (with shock)
 Color Available: Orange, Neon Yellow, Matte Black

DYNAMITE 27.5

ENDURO

Dynamite acts an important role in DaBomb family, that is representative of Enduro frame, to follow up the trendy design, Da Bomb has Dynamite suitable with 27.5 inches wheel set. The four-bar linkage theorem performed in rear shock, front triangle; the length of dropout 142mm in rear triangle, both functional configuration firmly strengthen entire structure.

Four-bar linkage design
 E2 direct mount front derailleur
 142mm QR thru axle

Size: 16"
 Tapered Head Tube 1-1/8"/1.5"
 Travel: 6 inches
 Shock: Rock Shox MONARCH RT L216*TR63*M8 (FW22.2+RW22.2)
 (DaBomb reserves the right to change the shock)
 Seat Post: 30.9 mm
 BB Width: 73mm
 Chain Guide: ISCG 05
 Rear Dropout: 142mm X 12mm
 Weight: 3640g (with shock)
 Color Available: Black/White, White/Red

FRAMES

EMP ATTACK 27.5

AM

Concerning to the all challenges from uphill and downhill, Da Bomb came out a new design to optimize the stabilization and lighten its weight, in this achievement, we include four-bar linkage theorem to overcome stretches caused, 142mm dropout for constructive rigidity, a superlight pneumatic rear suspension engaged, the dual and alternative junctions providing suspension travel at 4.7" and 5.4". When you are riding an All Mountain bicycle, EMP ATTACK is the best choice to you.

- 142mm QR thru axle
- Direct Mount Front Derailleur
- Dual travel alternative at 4.7" and 5.4"

Size: 16", 18"
 Tapered Head Tube 1-1/8" (ZS44/ 1.5" (ZS56)
 Travel: Dual alternation at 4.7" and 5.4"
 Shock: X-Fusion O2-RL L190*TR49*M8(FW22.2+RW52)
 (DaBomb reserves the right to change the shock)
 Seat Post: 30.9mm
 BB width : 68mm
 Chain Guide: ISCG 05
 Rear Dropout: 12mm X 142mm
 Weight: 3500g (with shock)
 Color Available: Matte Black,
 Yellow,
 Grey

EMP ATTACK 29ER

XC-AM

Big wheel reacts to an extremely stable performance. The EMP ATTACK 29ER is talented to cross the most difficult roads, no matters on rocks, gravels or sandy trails are all under your control. We took our EMP ATTACK 26" to rework the frame sizing and geometry to appropriately accommodate 29" wheels, since then 29ER is the best weapon to conquer any obstacles.

- Direct Mount Front Derailleur
- 29er Extremely Stable Feature

Size: 18"
 Tapered Head Tube 1-1/8" (ZS44/ 1.5" (ZS56)
 Travel: 4.2 inches
 Shock: X-Fusion O2-RL L190*TR49*M8(FW22.2+RW52)
 (DaBomb reserves the right to change the shock)
 Seat Post: 30.9 mm
 BB width: 68mm
 Chain Guide: ISCG 05
 Rear Dropout: 135mm X 10mm
 Weight: 3480g
 Color: Matte Black

REVOLUTION 26

SLOPE STYLE

Revolution is an useful frame that is mostly performed in Slope Style or sometimes acceptable in Dirt Jump and Street. Tapered head tube and four-bar linkage theorem adopted to reinforce the structure, shortened wheelbase leaves you a smarter ride, Da Bomb always keeps an elaborately geometric design towards to satisfaction wherever in performance or maintenance.

Optional widget:
 To fix cables, Da Bomb SLA is applicable to be replaced on bottle foothold.

- Four-bar linkage design
- Direct mount front derailleur
- 142mm QR thru axle
- Aluminum 7005 double butted tube

Size: 26"X13.5"
 Tapered Head Tube 1-1/8" (ZS44/ 1.5" (ZS56)
 Travel: 4 inches
 Shock: X-Fusion O2-RL shock L165*TR38*M8(FW22.2+RW22.2)
 Seat Post: 30.9mm
 BB Width: 73mm
 Chain Guide: ISCG 05
 Rear Dropout: 142mm X 12mm
 Weight: 3321g
 Color Available:
 Bright Black, Matte Camo,
 Neon Yellow, Royal Blue

FRAMES

SONIC BOOM 26

DJ / STREET

Color blue is themed by "the romantic daylight sky and ocean"; yellow is "dawn"; black is "night", that is definitely nature! DA BOMB team dedicated SONIC BOOM to all DJ bikers as spent time getting improvements from the past collections, to think about riding stunts, the length of chain stay (and wheelbase length) had been revised to be the shortest than ever made.

CNC machined
hardtail
Shortened wheelbase
design

Size: 26" x 12.4"
Tapered Head Tube 1-1/8" (ZS44) / 1.5" (ZS56)
Seat Post: 30.9 mm
BB Width: 73mm
Rear Dropout: 135mm x 10mm
Chain Guide: ISCG 05
Weight: 1976g
Color Available: Blue,
Neon Yellow,
Matte Black

CARBON KARMA XC

27.5

Carbon Karma is monocoque constructed with tapered head tube. It is a fantastic frame for cross country with lightweight designed, a sensation of "heavy" is gone to ensure you have wonderful ridings.

Size: 15", 17", 19"
Tapered Head Tube 1-1/8" (S42) / 1.5" (S52)
Seat Post: 31.8mm
Surface: UD
BB: BC 1.37" x 24T
Weight: 1200g
Color: Blue, White

Light and strong for cross country
Monocoque design
Inner cable guide

HYDROGEN BOMB

27.5

XC

The Hydrogen Bomb is the upgrade of Cluster Bomb, the progressive geometry and improved technology, triple butted tubes with superlight defined are the prerequisites comprised to enhance the performance.

AL 6061 Hydro-Forming Tube

Size: 15", 17", 19", 21"
Tapered Head Tube 1-1/8" (ZS44) / 1.5" (ZS56)
BB Width: 68mm,
Seat Post: 31.8mm
Weight: 1500g
Color: Black, Blue, Red, White

ATOM

27.5

XC

When we were thinking to create a name for this frame, we found "ATOM" is impeccable for the frame as a symbol of powerful invasion that seizes your heart and rocks your mind.

Disc Brake

Size: 15", 17", 19", 21"
Tapered Head Tube 1-1/8" (ZS44) / 1.5" (ZS56)
Seat Post size: 31.6mm
BB Width: 68mm
Weight: 1800g
Color: Blue, Black,
Red, White
(By Order)

(Customized order)

IMPACT STEM

MK26 PLUS DH

MK26 PLUS revised from MK26 is the shortest and super light DH direct mount stem designed for any application of dual crown forks. Different from MK26 design, MK26 PLUS built up connection between "2 pieces" to a firmer "1 pc".

Direct mount by 4 bolts.
The shortest extension
Superlight feature

Material: AL6061-T6 CNC machined
 Barbore: 35mm
 Ext.: 25mm and 30mm
 Angle: 20°
 Weight: 140g
 Color: Black, Red

MK26 DH

Simply locked by 4 bolts, two "pieces" structured is featuring to weight lightened, barbore 35mm is available for extra wide bar and adjustable extension to be 45 or 50mm, 15° upper from horizon lowers center of gravity providing bikers stiff and stable rides.

Direct mount by 4 bolts.
 Material: AL6061-T6 CNC machined
 Barbore: 35mm
 Ext.: 45mm and 50mm
 Angle: 20°
 Weight: 138g
 Color: Silver, Green, Red

DIRECT MOUNT SPACER

DA BOMB Direct Mount Spacer comes out for diverse gravity center settings, it is assembled directly and easily locked by 4 bolts, 5mm thick, 17.6g for each pieces, it is usually carried as accessories to set up with MK26 or other applications.

Direct mount by 4 bolts.
 Thickness: 5mm
 Weight: 17.6g
 Color: Black

MIG31 AM

When you glance this item, you will find its figure just similar a small prototype of battleplane called MIG 31. Exactly! That is the source we got from.

Consider smarter stunts performance, we combine some ideas as the shorter extension 45mm and the total weight 142g.

Material: AL6061-T6 CNC machined
 Barbore: 31.8mm
 Ext.: 45mm
 Steerer Dia: 1 1/8"
 Weight: 142g
 Color: Black, Orange, Red

F35 AM-FR

F35 brings you another AM/FR biking experience, its lessened extension as 45mm through comes along with weight reduced and leaves smartness when directing your bike, its V-shape holds the handle bar firmly, 35mm barbore is applicable from thicker bar.

Material: AL6061-T6 CNC machined
 Barbore: 35mm
 Ext.: 45mm
 Steerer Dia: 1 1/8"
 Weight: 154g
 Color: Black, Green, Red

MP8 AM

OFFSET -17°
Dual barbore sizes

Offset -17° lowering handle position is exclusively designed for 27.5", 29" and AM, XC bikers to have more stable rides. Dual barbore sizes 31.8mm and 35mm as options to cover more demands.

Material: AL6061-T6 CNC machined
 Barbore: 2 in 1 design in 31.8mm or 35mm
 Ext.: 60mm, 80mm
 Steerer Dia: 1-1/8"
 Angle: -17°
 Stack Height: 32mm
 Effective bar clamp height:
 9mm for ext. 60mm;
 15mm for ext. 80mm
 Weight: 148g/60mm; 170g/80mm
 Color: Black, Green, Blue

MINIME 33

DH/FR/DJ

MINIME 33 is designed to have the shorter and smaller body for any special trail condition.

Material: AL 6061-T6 CNC machined
 Barbore: 31.8mm
 Extension: 33mm
 Steerer: 1-1/8"
 Weight: 165g
 Color: Black/ Blue,
 Black/ Gold,
 Black/ Red

FLOATA

XC-AM

When it kicks in the light weigh, you can feel how light this stem is. Made with alloy 6061 3D forged that gives you the strong and super light feeling.

Fits 1-1/8" steer tube

Material: AL 6061-T6 3D forged
 Bar Bore: 31.8mm
 Angle: ±10°
 Length: 60mm/ 90mm
 Weight: 141g (60mm); 147g (90mm)
 Color: Black, White

KING AM-FR

Having the King on your bike is really cool and fun. With Anodized colors, the stem looks brighter and not so old school. Weight with only 157g that gives you light feeling. The new 2 in 1 design in 31.8 or 35mm has great strength and more suitable for riders.

Material: AL 6061-T6 CNC machined
 Bar Bore: 2 in 1 design in 31.8mm or 35mm
 Extension: 50mm
 Steerer Dia: 1 1/8"
 Weight: 157g (shim included)
 Color: Black, Blue, Green

TRIBAL HANDLEBARS

ARTILLERY

ENDURO / AM

ARTILLERY is a low rise handlebar with 740mm width, especially design for 29er and 27.5 AM and Enduro bikers, rise 4.8mm without upsweep, this is providing a lower gravity center to have more stable rides.

A flat top and 4.8mm raised bottom handlebar
Hydro-forming tube

Material: AL6061 hydro-forming tube
Barbore: 31.8mm
Bar Rise: 4.8mm
Backsweep: 9°
Width: 740mm
Weight: 276g
Color: green, black

DETONATOR 35

DH / FR

When you hear the name of Detonator, you must be thinking how cool this handle bar is? The Detonator focuses on the strength of the bar and the techs' at Dabomb spent day and day working on this bar and it finally came out. Although we switched the bar bore to 35mm but we still have the same weight and the bar rise is 18mm which has lower riding posture.

Material: AL 6061 T6 double butted
Bar bore: 35mm
Bar rise: 18mm
Backsweep: 8°
Upsweep: 6°
Width: 800mm
Weight: 397g
Color: Red, White, Yellow, Blue, Green

BAZOOKA 800

AM-DH

Downhill Handlebar

What a badass weapon?? The BAZOOKA is always the most wanted toy for boys back to high school and once you own it, then you are the boss.

Material: AL 6061 T6 double butted
Bar Bore: 31.8mm
Bar Rise: 12.7mm (0.5")
Backsweep: 9°
Upsweep: 5°
Width: 800mm
Weight: 402g
Color: Black, Royal Blue, Shiny Gold, Shiny Silver, White, Neon Yellow

APACHE 750

AM-FR

Like the Apache in the air, this handle bar has unlimited power to attack the enemies. Adapting the 6061 T6 heat treated aluminum which gives it more power and strengths.

Material: AL 6061 T6 double butted
Bar Bore: 31.8mm
Bar Rise: 25.4mm
Backsweep: 8°
Upsweep: 10°
Width: 750mm
Weight: 394g
Color: Black, White

TACTIC

DJ / STREET

If you got the DJ or Street bike, TACTIC will be your best weapon and it will help you to conquer the battle. Due to the super high 3 inches bar rise, the Tactic is good for SS DJ street. The width of 730mm is easier for riders to do tricks which is a big benefit.

Material: AL 6061 double butted
Bar Bore: 31.8mm
Bar Rise: 3"
Backsweep: 5°
Upsweep: 9°
Width: 730mm
Weight: 393g
Color: Sandblast Black, Sandblasted gold

COBRA

XC-AM

As what it says on the brochure, COBRA handlebar is quick and easy to steer. Made with AL-6061 double butted bar and you don't have to worry sliding your hands anymore. So what's cool about this COBRA? The wasabi green color is the color you will never find out on MTB handle bars and it's the exclusive color for DaBomb.

Material : AL 6061 T6 double butted
Bar Bore : 31.8mm
Bar Rise : 20mm
Backsweep : 5°
Upsweep : 6°
Width: 710mm
Weight: 267g
Color:
Barrel Brown, Black,
Wasabi Green

BONBONS LOCK-ON

MTB

It is always good to have the grip with lock on clamp so that can secure the intention. The Bon Bons features with slip-free design and it's easy to install. Once you see it, then you can't wait to get one.

Alloy Lock-on Clamp
Rubber compound
Slip-free pattern
Length: 135mm
Weight: 115g
Colors: Black (+ orange lock rings),
Red (+black lock rings)

BONBONS

DJ/ BMX

The performance of the BON BONS is really great due to the professional design of knobs which can absorb the impacts very well. With the special rubber material, the surface doesn't slide at all. It doesn't matter whether you want to do some magic or tricks, the Bon Bons will be easy to conquer.

Rubber compound
ID: 22.2mm,
Length: 140mm
Weight: 108g
Color: Black, Blue,
Orange, Purple, Red

HOLY SHIT 2.0

MTB

Having a cool grip that has skull engraving is not an easy thing and it makes people jealous all the time. Why do we call this Holy Shit? Cause it is holy shit.

DaBomb Solid Skull pattern
Alloy double-lock-clamp design
Out layer soft Kraton rubber,
inner plastic shell

Length: 130mm
Weight: 100g
Color: Black, White

DEPTH CHARGE

1.5" TAPERED INTERNAL ZS44 / ZS56

This item is widely used in heavy duty bikes, waterproof and anti-dust designs providing longer life on vehicles. Two distinct sizes in crown races 30.0mm and 39.8 mm are available to suit on trendy frames.

1-1/8" upper (ZS44)
1.5" bottom (ZS56)
Crown races including 30.0mm & 39.8mm
Material 6061 T-6 aluminum CNC-machined

1.5" TAPERED INTEGRATED-IS42 / IS52

Being with 45 degree bearings, two sizes of crown races 30.0mm and 39.8 mm for tapered steers, waterproof and anti-dust designs providing longer life on vehicles.

1-1/8" upper (IS42)
1.5" bottom (IS52)
Crown races including 30.0mm & 39.8mm
Bearing 45 degree

1-1/8" INTEGRATED IS42/IS42 for 1-1/8" fork

Size: IS42 / IS42
1-1/8" bearing 45 degree
6061 T-6 aluminum CNC-machined
Weight: 105g

1-1/8" INTERNAL ZS44/ZS44 for 1-1/8" fork

Size: ZS44 / ZS44
1-1/8" (28.6 mm)
6061 T-6 aluminum CNC-machined
Weight: 110g

SEATPOSTS

RPG (REMOTE)

XC-FR

RPG meant from "Rocket Propelled Grenade", a new telescoping seatpost upgraded from CANNON. All the strengths from CANNON were kept, new circuit designs engaged, makes RPG in better durability and stability. Structured with an air pressure cartridge is as a successful buffer guiding you to a moderate position.

Telescoping seatpost in 100mm range
Remote control mounted on handlebar

Material: Alloy
Post Length: 370mm
Adjustment Range: 100mm
Size: 30.9mm and 31.6mm
Weight: 737g

BOMB QR CLAMP 3.0

Adjust your seat to a moderate height, BOMB QR is a good assistance to help you out. Based with trendy colors used and additional effects "MATTE" and "GLOSS" created by anodized process are leaving on its surface to create clamp exquisite.

CNC machined
Quick Release
seat clamp

Material: AL6061-T6 CNC machined,
Sand blasting
Size: ϕ 34.9mm
Weight: 40g
Colors: Black, Blue, Red, Green

18

MARK2

Have you clamped today? It's time to get the new clamp and the Mark 2 is the new seat clamp in lightweight version.

CNC machined single-bolt design

Material: AL 6061-T6
Size: 34.9mm
Weight: 22g
Color: Black, Blue, Red, Silver

TORPEDOES

XC-ENDURO

Engage a special process of bending to have a tolerance offset 16mm, this function included is without increasing seatpost weight. Easily mount a saddle by one bolt adjustment.

Weight lightened
Additional function of 16mm offset
Various angles are adjustable

Material: AL 6061-T6 3D forged
Post Length: 400mm
Offset: 15mm
Size: 30.9mm and 31.6mm
Weight: 278g
Color: Black

THRUSTER

XC-DH

Thruster is a badass seatpost that weighs only 284g and it is using the 3D forged technology which make the seatpost stronger. Compared to other seatpost, the thruster comes with 27.2, 30.9 and 31.6mm which give you more options to select.

Material: AL 6061-T6 3D forged
Length: 350mm
Size: 27.2/ 30.9/ 31.6mm
Weight: 284g
Color: Black

19

STRAFE

New design hubs with dual seals caps used are preventing from sands, dust, water...etc intruding and **ENDURO** bearings engaged are for the smooth rotation, with laser logos put on, the hubs are getting more attractive than before.

F-15 + QR XC-DH Front Hub

2 sealed bearings
With one pair 15mm caps for alternation

O.L.D.: 100mm*(15mm, QR)
Spoke Hole: 32H
Weights: 196g/15mm, 202g/ QR
Color: Black, Blue, Green
International standard 6 bolts disc brake interface

R-142 + QR XC-FR Rear Hub

4 sealed bearings
With one pair 135mm QR caps for alternation
With one piece of spacer to accept 10-11 speed free wheels

O.L.D.: 142mm*12mm (135mm*QR)
Spoke Hole: 32H
Weight: 314g
Color: Black, Blue, Green
International standard 6 bolts disc brake interface

R-10 BOLT-ON TYPE DJ-STREET Rear Hub

4 sealed bearings
Accept 10 speed free wheels.
STRAFE R-10 is BOLT-ON type especially designed for DJ-Street biker.

QR-R 142 THRU AXLE AM-FR

DaBomb always have some options for our customers and the thru axle is one of them. The QR-R 142 thru axle can adjust the ideal position easily and it's also compatible with Shimano E-thru system.

M12X Pitch 1.75 Thru Axle
Weight: 79g
Color: Black

R-150 THRU AXLE DH

DaBomb has added the Rotate R-150 AXLE to the family and it is for 12mmx150 mm hub
Color: Red

BOMB PIN 3.0

The lever section is done by CNC cutting and sand blasting, anodic process create additional effects "MATTE" and "GLOSS" on its surface, with fashion colors based to make the BOMB PIN 3.0 exquisite.

Material: AL6061-T6 CNC machined, Anodized and Sand Blasted lever
CR-MO axle
Length: 100mm/front, 135mm/rear
Weight: 85g
Colors: Black, Blue, Red, Green

RIMS / WHEELSET

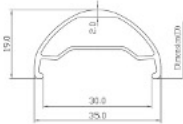

ADVANCE 275

DH-FR

ADVANCE is the new designed alloy rim for the 27.5 DH-FR bikers, the feature is extra light that only weigh in 495 grams/pc. Compare to carbon rim, ADVANCE has the same weight but a lot cheaper than carbon rim, that is, ADVANCE gets the same strengths from Carbon rim but more affordable for the bikers.

Superlight For 650B

Material: AL6061-T6
 Size: 27.5"x32H
 Width: 35mm
 Height: 19mm
 Weight: 495g/pc
 ERD: 556.5mm
 ETRTO: 584mm
 Color: Anodized logo in white, neon yellow, neon blue

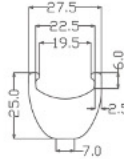

REV-275 XC-ENDURO CARBON

If you are looking for a rim presented lightly, the material of carbon fiber (Toray carbon T800) is fulfilled your demands, this is the material connecting to a structure stiffer and lighter and making your bike stronger.

Ultra-light weight design For 650B

Material: Toray carbon T800 w/ UD finish
 Size: 27.5"x32H
 Width: 27.5mm
 Weight: 450g/PC
 Color: Matte Black

DA BOMB RIM TAPE

Dabomb logo rim tape for 26"rims, 27.5" rims
 Material: High strength tape

STRAFE EVO WHEEL

XC-AM

Ultra light REV-275 rims plus straight spoke type hubs STRAFE EVO, the new design hubs with dual seals caps and ENDURO bearings, as more tension than other hubs that would be favorite items by someone who is pursuing more stiffness on bike construction.

REV-275 Rim (Camo) 27.5"(650B)x28H, Width:28mm
 STRAFE EVO F-15 (Orange/Black) convert to 9mm QR type
 STRAFE EVO R-142 (Orange/Black) convert to 135mm QR type and 9/10 speed Aluminum cassette body.
 Disc brake hub

Spoke: Black stainless steel 14G
 Weight: 1805g
 Color: Camo

REV-275 WHEEL

XC-FR

Use ultra-lightweight as 429 grams/pc of REV rims, engage STRAFE series hubs with ENDURO bearings to enhance performance and durability.

REV-275 Rim (Black) 27.5"(650B)x32H, Width: 26mm
 STRAFE F-15 (Black) convert to 9mm QR type
 STRAFE R-142 (Black) 9/10 speed Aluminum cassette body
 Disc brake hub.

Spokes: Black stainless steel 14G
 Weight: 2200g
 Color: Black

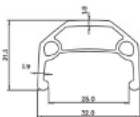

REVOLVER 26

FR-DH

With Dabomb's newest technology, the strength of the rim is high but it's not heavy at all.

Material: aluminum rim with stainless steel eyelets
 Size: 26"x32H
 Width: 32mm
 Weight: 700g /PC
 Color: Golden Camo, Royal Blue

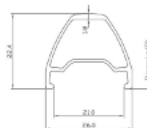

REV-275 XC-FR

Having the right rim is the most important thing on the road and if the rim is too heavy, it will affect your mood and speed definitely. With the material of alloy 6061-T6, the rim is strong and light which can help you to battle on the road without any problems. This time DaBomb got the new wheel for 650B and this definitely will be your best choice.

Ultra-light weight design For 650B

Material: AL 6061-T6 w/stainless steel eyelets
 Size: 27.5"x32H
 Width: 26mm w/ stainless steel eyelets
 Weight :429g/ PC
 Color: Black, Golden Camo, Neon Yellow

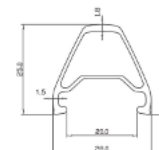

EVOS 26

XC-FR

Isn't that so great and cool to have shiny colors on the road while riding? The Dabomb EVOS rim weights only 530 grams and it's available for cross country, all mountain, and freeride.

Anodized finish with decals
 Double-Walled Aluminum Rim

Material: AL 6061 w/ stainless steel eyelets
 Size: 26x32H
 Width: 28mm
 Weight: 530g/ PC
 Colors: Black, Blue, Green, Orange, Red

BULLET CLIP

BULLET CLIP, CNC machined pedals, are following trendy to reduce their thickness and eventually only 10mm/pc measured with superlight featuring out. Free vent design that spindle end is not exposed outerly, this design is going to prevent water and dirt intruding to last BULLET CLIP's life.

Material: AL6061-T6 CNC machined
Each piece including one sealed bearing with one DU CR-MO Axle
Platform: 97mm*108mm
Thickness: 10mm
Weight: 356g/ pair
Color: Black, Blue, Red

XC-DH
Free vent design
Extreme thin
Replaceable anti-slippery steel pins with a convenient wrench included

SHOOT BLOCK XC-DH

Made by die cast is more affordable for bikers. 9mm thickness is ultra thin that offers bikers having the truest feeling on pedaling and the superlight design which only weigh one pair of SHOOT BLOCK in 352g. Engage anti-slippery pins and diamond grain surface to reduce scrapes caused whatever left on biker's feet or pedal itself.

Die casting pedals
Extreme thin
Replaceable anti-slippery steel pins with a convenient wrench included

Material: Die cast AL6061-T6, ED coating colors, PAD printing logo
Each piece including two sealed bearings with one DU CR-MO Axle
Platform: 100mm*105mm

Thickness: 9mm
Weight: 352g/pair
Color: Matte Black, Gloss Red, Gloss Blue, Gloss Silver

POPSICLE DJ/ STREET FIREBALL XC-DH

Different materials definitely give you different feeling when you are pedaling. This time, Dabomb issues plastic pedal material and just weight only 350 gram.

Ultra light plastic pedal,
Gorgeous thickness,
Nylon Fiber made,
Cr-mo axle,
Smooth rolling ball bearings

Thickness: 15mm (super thin fiber)
Platform: 100mm x 100mm
Weight: 350g/ pair
Color: Black, Green, Orange, White

Fireball is a pedal that has one piece alloy body and replaceable pins that gives you the best feeling to step on. It doesn't matter whether you are going up or going down, the Fireball will be your best companion.

One-piece alloy body
Replaceable pins and Cr-Mo axle
Platform: 100mm*105mm

Weight: 456g/ pair
Color: Black, Neon Yellow

ASPECT XC

ASPECT has low profile design giving XC bikers the realest feelings, PU design makes the saddle looks pretty cool, material density foaming fabric strengthens its structure and gives bikers more cozy rides.

Low profile design

Material: High frequency embossing PU Cover, nylon fiber injection base, high Density foam.
CrMo Rail: 7mm w/dual color process
Weight: 241g
Color: Gloss black/matte black,
Neon yellow/matte black,
Gloss black/white

ZAP DJ

The key point to win the battle is to have a good saddle that can tied you up on the bike and zapping the enemies for you. ZAP comes with anti-slip material that doesn't slide you away and it weights only 257g.

Anti-slip Suede material covered

Material: PU Synthetic leather (white)/
Suede (black/
Suede (Blue)Cr-Mo Rail: 7mm
Weight: 251g (black/blue) 257g (white)
Color: Black, White, Blue

DA SKULL 2.0

We don't care what symbol you have on your saddle but we can tell the Dabomb DaSkull saddle is definitely an exclusive saddle that's has cool SKULL symbol on the market. Featuring with ultra strong Cr-Mo rails, you don't have to worry the strength since today.

Low Profile Aero Shape
Lightweight Saddle

CrMo Rail: 7 mm
Weight: 269g
Color: White

BOOSTER

Different from universe saddles, the rear section of the saddle is raised as the new design from DA BOMB to ensure your bottom covered and avoided from slippery. Stylish bumper sewed on the connection of fabric and chassis is reinforcing entire structure.

Enlarged chassis
Stylish bumper
Raised to the rear portion

CrMo Rail: 7mm w/dual color process
Weight: 250g
Color: Camo, Black, Streak

RECOIL CHAIN GUIDE

GSX + X-GUARD

AM-Enduro

When designed GSX, our objective was obvious that kept the item lighter without sacrificing its function. GSX is especially compatible with narrow-wide chainring (X-RING) to get maximum efficiency. GSX guides chain more smoothly without getting extra unnecessary rolling resistance.

Lightweight design
For narrow-wide chainring

9-11 speed
Chain ring capacity: 30T-36T
Chain guide system: I.S.C.G 05
Color: Black
Weight: 47g

BCD: 104mm Max. 36T
Chain ring capacity: 36T
Weight: 45g

X-GUARD

This segmented bash guard is covering a quarter of your chainring and simply mount on where you are going to need it. If somebody is doubt how this bash going on if not fully covers your chainring... Well, the answer will be obvious after you mounting the item on.

AL6061-T6 CNC machined with Anodized colors

GS - D AM

AL6061-T6 CNC machined with Anodized colors

As the designs of the roller is broader and is using material as soft as possible, since DA BOMB was considering to upgrade GS-D on the achievement of reducing and avoiding from unnecessary frictions, resistance and noise.

Lightweight design For dual chain wheel
Avoid from unnecessary vibration and chain offset

Chain ring capacity: 22T-38T
Chain guide system: I.S.C.G 05
Color: Black
Weight: 77g

CGS - G

BGS

AM-DH

Chaining with bashguard Type
(Need to be assembled with bashguard)
CNC aluminum body

9-11 speed
Chain guide system : I.S.C.G 05
Chain ring capacity : 32T to 40T
Weight: 152g
Color: Black
* The item does not include bashguard.

SCROLL STREET/ DIRT JUMP

JUMPING BIKE KITS

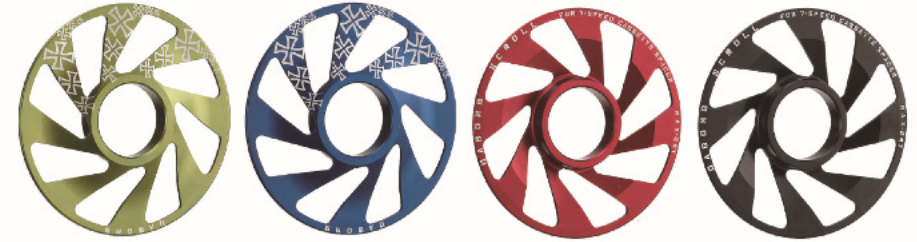

SCROLL is a spacer converting 10 speed to 7 speed, it is applicable for both mountain and road bikes. If someone has a demand of lightening the bike by taking some bigger sprockets off from the drivetrain,

SCROLL is a great assistance to make your bike get rid of complicated shifts and have more responsive shift system left.

Size: 35mm axle
Material: AL6061-T6, CNC machined
Weight: 39g
Color: green, blue, red, black

Compatible with SHIMANO system:
MTB: Deore XT, XTR
Road Bike: 105, Ultegra, Dura-Ace

Application:
MTB: ranged after 19T sprocket.
Road Bike: ranged after 24T sprocket.

X - RING

Engage narrow-wide teeth to prevent from the situation of chain dropping off or offset. Special design at 30 teeth X-ring that nuts shaped in once piece, so what you have to prepare is only 4 bolts to simply and directly lock the x-ring on your bike. (Usually we recommend customers to bring X-ring with Sprocket together.)

Narrow-Wide chaining
Nut shaped in one piece for 30T sprocket design

Material: AL7075-T6 CNC machined with Anodized colors
Teeth: 30T, 32T, 34T, 36T
BCD: 104mm
Color: Black/Green/Blue
Weight: 35g/30T, 49g/32T, 67g/34T, 85g/36T

SPROCKET

STREET/ DIRT JUMP

If someone would like to expand the range of gear ratio, 40/42T sprocket is necessary to run with 10 speed setup, 10 spd Shimano drivetrains system is compatible with the sprockets as well. (Usually we recommend customers to bring Sprocket with X-ring together.)

Suggest suit for 10-Speed system:
11-13-16-19-21-23-26-30-34-40
11-13-16-19-21-24-28-32-36-42

Material: AL7075-T6 CNC machined/40T & 42T
Chrome Steel/16T
Teeth: 16T, 40T, 42T
Color: Green, Blue/40T & 42T
Gold/16T
Weight: 23g/16T, 72g/40T, 78g/42T

JUMPING BIKE KITS & APPAREL

RL-4 STREET/ DJ

Chain Tensioner
New micro adjustable roller system Multi-segment tension adjustment Convert a vertical drop-out frame to single speed

Weight: 86g
Color: Orange

9-TO-1 PRO

STREET / DJ

Changing the cassette can be annoyed sometimes and this is why Dabomb created the 9 to 1 PRO kit. This kit can convert a 9-speed hub cassette to a single speed kit which saves you lots of time and works.

Include: two spacers, 16T & 18T, and a lock ring
Weight: 130g
Color: Black

HCT STREET/ DJ

New Logo
Horizontal Chain Tensioner
For horizontal drop-out system

Weight: 71.5g
